ABOUT THE GROUP

The passion that we possess, which has no limits, and our thirst for success in the field of business, which is mixed with our love for this country and our eagerness to see it grow and develop in all fields and sectors, and based on our long-term strategic vision. All of this was the idea which the Orient Group was emerged, as this group must include the most vital sectors in order to be able to cover most fields and work in them in a way that allows access to a real renaissance that will be beneficial for the country and everyone.

Orient Group includes under its wings several companies specialized in several fields such as contracting, construction, logistics services, security services, as well as small and large manufacturing fields and other important fields and sectors.

Orient Group was established in 2018 under difficult and complex circumstances, but despite that, today it has become a name that has a reputation and resonance in the sectors which it operates and provides services and solutions with high quality and efficiency. And all this is the result of the wise management of the group, represented by its founder, who devotes all his time for the sake of the group and its development and placing it in the ranks of the first ranks, whether at the national level or abroad.

Foreword by the Founder and CEO

There is no doubt that success is what generates energy in us to strive for greater success, and this is what we found when we established Orient Group Ltd., as we always strive for development, expansion, and setting strategic plans to meet challenges, keep pace with the future, and continue to succeed.

Also, we do not forget our efficient employees who are one of the pillars of this group and one of the elements of its pride that we are proud of, in addition to all our customers who gave us their full confidence and became permanent partners for us.

We love to work in the spirit of one team and together, as we all in Orient Group carry the same dream, goal and aspirations that will lead us to build a real future for our future generations.
